

Arjomandi & Arif

Iranian Lawyers Office

LEGAL SOLUTION FOR FOREIGN INVESTORS

Iranian Lawyers Office

We would like to introduce ourselves as a law firm in Iran providing our clients with professional legal services of the highest caliber, combining technical excellence with commercial awareness and a practical, constructive approach to your legal issues. We are a team of experienced and talented lawyers graduated from the most prestigious and distinguished universities of Iran.

Iranian lawyers office capabilities extend across the commercial law, contracts, with particular expertise in trade regulation law, taxation, dispute resolution, joint venture projects, local and international partnerships and agency agreements. The office also advises on activities related to oil and gas, free trade zones, due diligence, investment regulations, company and branch registration, labour, intellectual property and other areas of the Iranian legal system.

We also have very skilled associates in litigation and defending the civil and penal cases before the courts of Iran. We deliver results, not theoretical analysis that leaves you wondering what to do and our lawyers know how to manage legal expenses. We don't subscribe to the uncontrollable, stopwatch billing model favoured by most law offices. Whenever possible, we offer affordable fee for our services so you can properly plan and budget for our services.

Why Iranian Lawyers Office?

Choosing a law office that you trust can be challenging, whether you are an individual hiring for yourself or an in-house lawyer or executive hiring for your company. There are literally thousands of law offices in the marketplace; telling the difference between them is tough specially in Iran. Here are some arguments that often set us apart:

- ❁ *We are a boutique office and compete based on the value that a highly focused office can offer. Rather than practicing as 'generalists', we have chosen to specialize in a set of related practice areas. As a result, our lawyers have developed an outstanding familiarity with certain areas of law.*
- ❁ *We respect client's legitimate objectives. We ask clients to rely on our independent legal advice, which is always geared toward minimizing client's risk and maximizing value.*
- ❁ *We charge reasonable fees. We have priced ourselves competitively and reasonably, taking into account the nature of our boutique practice, the focus and knowledge of our lawyers, and the value they bring to legal transactions and proceedings. At the same time, we are not the low-price leader and you can find cheaper lawyers. However, we do not believe that you will find better value.*
- ❁ *We do not hide fees and provide our rates to clients.*
- ❁ *We keep clients informed and involved in their legal matters. In fact, we consider ourselves as 'partners' with our clients - informing them of significant developments and asking them to participate in decision making. In short, we take a collaborative approach to the practice of law.*
- ❁ *We maintain client privacy - an ethical obligation that we take very seriously. We believe that lawyers must respect the unique fiduciary relationship between themselves and their clients.*

WE MANAGE ALL OF OUR CASES IN-HOUSE

We do not forward any of our cases to inexperience and unqualified lawyers.
